Statement on Passage of House Bill 277

“The Idaho House Republican Caucus is one step closer to saving valuable taxpayer dollars with the passage of House Bill 277 today. We are grateful we had the opportunity to have such a robust debate on this important piece of legislation, after hearing from so many Idahoans over the past weeks, and creating a fiscally responsible plan that’s directed at complete population health. The bill saves on the costs related to Medicaid expansion by focusing on patient-centered managed care. I would now encourage the Senate to support this bill, to ensure we have an Idaho way forward on Medicaid expansion,” said Idaho House Majority Caucus Chair, Rep. Megan Blanksma.
