Statement on Veto of Senate Bill 1159

“Though I’m disappointed that Governor Brad Little chose to veto SB 1159 today, House Republicans look forward to working with the Governor on future legislation that protects Idaho’s processes from out-of-state special interest groups. I agree with the Governor that we must control the rules of our initiative process and keep it out of the hands of the liberal Ninth Circuit Court. I also agree that we cannot become like California, where their liberal initiative processes hamstringing their government, resulting in excessive regulation and conflicting laws. Hopefully we can develop new legislation that will ensure that Idaho will avoid such a fate,” said Caucus Chairman, Rep. Megan Blanksma
